2011 – Holiday Inspiration – Day 9

Angels and Snowmen and Trees, Oh My!

A few quick pairs of earrings to show your holiday spirit or pass the spirit on to friends. We have the kits for these little darlings in the shop. All you add are the tools and time to finish them, then adorn your ears.

Question: How many bibs does one baby need? Answer: There's never enough, especially if they're cute!

Take ready-to-wear bibs (or Onesies, beanies, diaper covers, t-shirts, ...you see where we're going?), cut out a cute flower motif or novelty fabric dinosaur, then topstitch the design to the bib or garment. Novelty motif not "cutting" it for you? Cut out letters to spell a nickname or fun word, or use your machine to embroider a design like the one above (from BERNINA Embroidery Take Out or Design Studio) to your item instead.
